**Subject: Marilyne Cleeves, Central Coast Support**

To Whom It May Concern:

Marilyne Cleeves has provided our company computer hardware and software support since 2004. She has installed computers, servers and has even set-up systems to be used by our field staff working in remote areas of California. Marilyne has established and maintained our website and email needs. She is organized, can work independently and is flexible with our office priorities. In business since 1987, we have used other IT companies in the past; Marilyne has by far provided the best service.

If you have any questions, please feel free to contact me.

Respectfully,

Kathy L. Whitaker, CFO
